If you haven't checked out one of the current-generation disposable diapers, you should know that they've come a long way in the past forty years. And yes, we can make them at a rate of 720 per minute! Curt G. Joa, Inc. is a specialty machine designer and builder, and disposable diapers is just one of dozens of products we've built machines for in the years since we began in 1932. If your new product plans require web processing technology ranging from the simple to the sophisticated, perhaps JOA has your solution.
